Test Case	Test Case Description	Status
TC_001	message when the email field is left empty.	Pass
TC_002	data.	pass
TC_003	an invalid email format.	pass
TC_004	when the password and confirm password fields do	pass
TC_005	an email address that is already registered.	pass
TC_006	requirements.	pass
TC_007	length.	pass
TC_008	Verify that the system accepts passwords with special characters.	pass
TC_009	Verify that optional fields can be left empty and the form can still be submitted successfully.	pass
TC_010	Verify that the user must accept the terms and conditions to register.	Fail
TC_011	Verify that the email confirmation link works correctly.	pass
TC_012	Verify that the registration page works correctly across different web browsers.	pass
TC_013	Verify that the registration page is responsive and works correctly on mobile devices.	pass
TC_014	Verify that the system handles session timeouts correctly.	pass
TC_015	Verify that the user is redirected to a confirmation page after successful registration.	pass
TC_016	Verify that a user can log in with valid credentials.	pass
TC_017	Verify that a user cannot log in with an invalid password.	pass

TC_018	Verify that the login page displays an error message when both username and password fields are left blank.	pass
TC_019	Verify that the login page allows simultaneous logins with different credentials in different browsers.	pass
TC_020	Verify that the "Enter" key works correctly on the login page.	pass
TC_021	Verify that the account is locked after multiple consecutive login attempts.	pass
TC_022	Verify that a user cannot log in with an unverified email address.	pass
TC_023	Verify that the login system is case-sensitive for both username and password.	pass
TC_024	Verify that the login page works correctly with browser autofill functionality.	pass
TC_025	Verify that the system prompts the user to change their password /otp if it has expired.	pass
TC_026	Verify that the system handles network interruptions during the login process.	pass
TC_027	Verify that the login session remains valid when the browser back button is used.	pass
TC_028	Validate phone field on the test form with invalid number	Fail
TC_029	Verify that the search bar returns relevant results for a valid search query.	pass
TC_030	Verify that the search bar returns relevant results for a valid search query.	Fail
TC_031	Verify that the search bar handles invalid search queries gracefully.	pass
TC_032	Verify that the search bar handles special characters correctly.	pass
TC_033	Verify that the search bar returns accurate results for queries with multiple keywords.	pass
TC_034	Verify that the search bar provides auto-suggestions as the user types.	pass
TC_035	Verify that the search results can be filtered by various criteria (e.g., price, category).	pass

TC_036	Verify that the search bar displays recent search history.	pass
TC_037	Verify that the search bar suggests corrections for common typos	pass
TC_038	Verify that the search bar allows filtering results by category.	pass
TC_039	Verify that the search bar allows filtering results by price range.	pass
YC_040	Verify that the search results display product reviews and ratings.	Fail
TC_041	Verify that the search bar handles cases where no results are found.	pass
TC_042	Verify that the search results page displays recently viewed products.	pass
TC_043	Verify that the search bar loads within 5 seconds	Fail
TC_044	Verify that the search bar loads within 5 seconds on various devices (e.g., desktop, mobile, tablet).	Fail
TC_045	Verify that a single item can be added to the cart.	pass
TC_046	Verify that multiple items can be added to the cart.	pass
TC_047	Verify that items with different variants (e.g., size, color) can be added to the cart.	pass
TC_048	Verify that an item can be removed from the cart.	pass
TC_049	Verify that the system enforces a minimum order quantity for certain items.	pass
TC_050	Verify that coupons can be applied to items in the cart.	pass
TC_051	Verify that items can be added to the cart when the user is logged out.	pass
TC_052	Verify that items can be added to the cart when the user is logged in.	pass
TC_053	Verify that a single item can be added to the wish list.	pass
TC_053	Verify that the user can view items in their wish list.	pass

TC_054	Verify that an item can be removed from the wish list.	pass
TC_055	Verify that multiple items can be added to the wish list.	pass
TC_056	Verify that an item can be moved from the wish list to the cart.	pass
TC_057	Verify that items with different variants (e.g., size, color) can be added to the wish list.	pass
TC_058	Verify that the wish list remains consistent when the browser back button is used.	pass
TC_059	Verify that a user can successfully complete a checkout with valid payment details.	pass
TC_060	Verify that a user can select multiple shipping addresses for different items in the cart.	pass
TC_061	: Verify that the system handles cases where the credit card used for payment is expired.	pass
TC_062	Verify that the system handles network interruptions gracefully during the checkout process.	pass
TC_063	Verify that a user can complete a checkout using different payment methods (e.g., credit card, PayPal, gift card).	pass
TC_064	Verify that the system validates the shipping address during checkout	Fail
TC_065	Verify that the user can review the order summary before placing the order.	pass
TC_066	Verify that the user receives an order confirmation email after successful checkout.	pass
TC_067	Verify that the user can track their order after checkout.	pass
TC_068	Verify that a user can use saved addresses during checkout.	pass
TC_069	Verify that a user can modify the order before placing it.	pass
TC_070	Verify that a user can submit a review for a product.	pass
TC_071	Verify that a user can view reviews for a product.	pass

TC_072	Verify that a user can filter reviews by rating (e.g., 5-star reviews).	pass
TC_073	Verify that a user can delete their own review.	pass
TC_074	Verify that a user can like a review.	pass
TC_075	Verify that a user can dislike a review.	pass
TC_076	Verify that a user can upload images with their review.	pass
TC_077	Verify that a user can upload a video with their review.	pass
TC_078	Verify that the review text box enforces a character limit.	pass
TC_079	Verify that the review text box accepts special characters.	pass
TC_080	Verify that a user can submit a rating without writing a review.	pass
TC_081	Verify that a user can successfully initiate a return within 15 days of purchase.	pass
TC_082	Verify that the system requires items to be returned with original packaging.	pass
TC_083	Verify that a user can choose the drop-off method for returning items.	pass
TC_084	Verify that the refund is processed correctly after a return is received.	pass
TC_085	Verify that a user can choose to exchange an item instead of getting a refund.	pass
TC_086	Verify that a user can view the product details page for a specific item.	pass
TC_087	Verify that a user can view multiple images of a product.	pass
TC_088	Verify that a user can check the availability of a product in different sizes and colors	pass
TC_089	Verify that a user can read customer reviews on the product details page.	pass
TC_090	Verify that a user can view detailed product specifications.	pass

TC_091	Verify that a user can view a summary of product reviews.	pass
